Outcome: Claim Submission has been successfully submitted to Certifier to certification.

Important Note:

- System only allows users to fill in the **overtime end up to 23:59** for each day.
- 00:00** indicates the **start of a new day**.
- To capture the correct hours and minutes; the **loss of minute** from 23:59 to 00:00, employees may adjust the **overtime end by adding extra 1 minute**.
- The overtime hours are captured in **Overtime Duration** and **Accumulation for overtime duration** field(s).

Following the above scenario, the overtime hours clocked reflected **should be 08:15 hours**. However, when entering overtime start and end **16:30 to 23:59** and **00:00 to 00:45** respectively, it will reflect **08:14 hours only**. Therefore, referring to **Note iii**, employees are **advised to add 1 minute at the overtime end**.
